\$100,000 by GEODIS or its Customer, whichever is higher. If carrier's insurance policy contains a schedule of covered vehicles, carrier will only transport this shipment using a vehicle that is listed as a scheduled vehicle on their insurance policy.

**Temperature-Controlled Handling:**

Carrier shall ensure that any shipments requiring controlled temperature transit are maintained at all times within required temperature ranges and shall otherwise comply with handling instructions provided by the shipper, consignor or consignee (including such instructions that may be passed through to Carrier by Broker). If Carrier accepts goods requiring temperature control but does not determine the temperature of the goods prior to loading, or does not provide proper equipment, or fails to maintain and monitor proper temperature requirement for the shipment while in Carrier's possession, Broker's customer(s) or consignee may reject, and Carrier shall be liable for the load as a total loss, without any salvage obligation or credit to Carrier.
