- Carrier, when operating in California, must meet the requirements of California Air Resources Board (CARB) amendments to the Transport Refrigeration Unit (TRU) Airborne Toxic Control Measure (ATCM) effective January 1 2013. Carrier acknowledges that it meets these regulations for the specific trailer refrigeration unit utilized to transport Matson Logistics shipments while on California roadways and highways. Carriers must register all such refrigeration units on: <https://arber.arb.ca.gov/publicTruSearch.arb>

- Carrier shall maintain all refrigeration and heating units in good condition. Such units shall be inspected by Carrier or a service company in accordance with the recommendations of the manufacturers or at least once every 30 days, whichever is more often. Carrier shall make any repairs and perform all corrective or preventive maintenance as specified by the manufacturer of the units. Carrier shall maintain records of such inspections, repairs and maintenance.
- In the event of loss, Carrier shall, as soon as commercially reasonable, provide Matson Logistics with all records of inspections that relate to the loss and permit copies and abstracts to be made from them.

Matson Logistics **requires all carriers** to accept automated tracking via Trucker Tools Load Track.

Load Track must be active prior to arrival at the first pick-up and through the final delivery to receive approval for layovers and/or detention if applicable. Failure to accept Load Track and successfully track the load through final delivery may result in a \$50 rate deduction. It is the carrier's responsibility to ensure the order is successfully tracking.

Load Track through ELD

Trucker Tools can integrate with your ELD provider. To integrate your ELDs with Trucker Tools, go to:

<https://www.truckertools.com/carriers/eld-carrier-integration/#get-connected> or [CLICK HERE](#)

For assistance on how to set up your ELD with Trucker Tools, please contact eldsetup@truckertools.com or call **703-955-3560**. Once integrated with ELD, all the carrier needs to provide is a truck number as registered with the ELD provider. No driver participation or smartphone is required.

Load Track App for iPhone and Android Phones or Tablet

When you or the carrier provide the driver's cell phone number, a text message will be sent to the driver with the Load Track request, including a link to download the Trucker Tools App. If the driver doesn't have the Trucker Tools App installed, the driver must download and install the [FREE Trucker Tools App](#).

Starting and Ending The Load Track

When the driver is assigned the load, they need to open the Trucker Tools App on iPhone or Android phone. Then, click the Load Track button on the main menu, and start the corresponding Load Track by clicking the Start Track button.

Easy for Drivers to Install And Use

Trucker Tools App is available for the following operating systems and phones. It can be downloaded from [Google Play](#) (Android) or the [App Store](#) (iPhone).
