BILL OF LADING  
85259616

SHIPMENT#  
12427993

RECEIVED, subject to applicable classifications, tariffs, circulars, letter quotes and/or contractual agreements in effect on the date of the shipping point hereof, in apparent good order, except as noted. Contents and condition of contents of packages (unknown) marked consigned, and destined as indicated hereof, which said carrier (the word carrier being understood throughout this contract as meaning any person or corporation in possession of the property under the contract) agree to carry to its usual place of delivery at said destination, if on its route, otherwise to deliver to another carrier on the route to said destination. It is mutually agreed, as to each carrier of all or any of said property, that every service to be performed hereof shall be subject to all the terms and conditions of the Uniform Bill of Lading set forth (1) in Uniform Freight Classification in effect on the date hereof, if this is a rail or a rail water shipment, or (2) in the applicable motor carrier classification of tariff of this is a motor carrier shipment. Shipper's signature hereof certifies that he/she is familiar with all the terms and conditions of the said bill of lading, set forth in the classification or tariff which governs the transportation of this shipment, and the said terms and conditions are hereby agreed to by the shipper and accepted for himself/herself and his/her assigns. Shipper's signature hereof signifies its intent to apply Conditions of Section 2 of applicable bill of lading, i.e., The carrier shall not make delivery of this shipment without payment of freight and other lawful charges.

Vesta SBF products are manufactured using no added formaldehyde-based resins and are EPA TSCA Title VI certified and comply with CARB ATCM 93120 HAF for formaldehyde emission limits.

All shipments will be subject to a Fuel Surcharge

**WARNING:** Drilling, sawing, sanding or machining wood products can expose you to wood dust, a substance known to the State of California to cause cancer. Decoratively surfaced wood products (for example, decorative papers, or surfaced with paint or print) may also generate other inhalable trace particles which are known to the State of California to cause cancer (for example, airborne inhalable trace particles of titanium dioxide, and/or carbon black). Avoid inhaling wood dust and trace particles by using proper dust collection systems and/or the use of a dust mask or other suitable personal protection equipment. This product can expose you to formaldehyde, a substance known to the State of California to cause cancer. For more information go to [www.P66Warnings.ca.gov](http://www.P66Warnings.ca.gov).

Refer to product SDS for further information which can be found on our website: <http://na.arauco.com/>.

Arauco will not be held responsible for deflection or warpage when TFL papers are not the same on both sides of the panel.

Fire Retardant applied to fabricated (FR) Particleboard and MDF panels, including Vesta FR panels, may change the flame spread rating. Standard available

woodworking glues have been successfully used in lamination. However, some adhesives may have compatibility problems with the chemical system used to manufacture Particleboard FR, MDF FR and Vesta FR. Any adhesive should be tested for compatibility with the chemical system in Particleboard FR, MDF FR and Vesta FR prior to full-scale gluing. Questions should be directed to the glue supplier. When using Particleboard FR, MDF FR or Vesta FR in wall systems, an integral vapor barrier must be a properly installed component of the wall in any of the following conditions: the wall has an exterior side, and the wall separates spaces conditioned unequally. Joints between panels to be designed to accommodate movement of up to .40 percent. Splined or articulated joints for reveals per AWI Section 500, 500A-G-4 #Joints and Transitions# or similar is suggested. Wood veneers and other laminates should be tested for compatibility with Particleboard FR, MDF FR and Vesta FR prior to use. Some wood veneers, laminates, and other types of products may have reactions to surface coatings and finishes, glues, pressing temperatures, moisture, contaminants, the chemical systems used to manufacture Particleboard FR, MDF FR and Vesta FR products, the failure to use UV inhibitors, or due to other causes. Reactions may include discoloration to veneer or laminate. ARAUCO is not responsible for discoloration or for claims associated with discoloration. Please contact your Sales Representative for more information.
