Shipment Tracking Requirements

Real-time tracking of shipments via the 5F OTR App is important on EVERY load. To ensure proper tracking, a Carrier is responsible for ensuring the following:

- The driver must be assigned by the Carrier at the latest one (1) hour prior to the scheduled pickup of the load.
- The driver must have the 5F OTR app installed—with location sharing enabled—and keep the app running (at least in the background) during both loading at pickup and unloading at dropoff points.

A portion of the quoted linehaul for each load is consideration for the foregoing. If these conditions are not met, the Carrier will not receive the applicable portion of the linehaul payment:

Shipment Tracking is a flat allocation of \$150 from the linehaul amount, regardless of the total linehaul.

Do not leave this money on the table. The 5F OTR App is available for iOS ([Download](#)) and Android devices ([Download](#)).

Payment Requirements

Detention and Accessorial Charges

Detention will only be paid if it can be verified in its entirety via tracking in the 5F OTR app. If tracking is not active at time of arrival, detention and layovers cannot be paid. All accessorial charges must be requested by the carrier and approved in advance by the broker, as reflected in the 5F OTR app and web portal for the load.

Payment Terms

Proof of delivery must be submitted by the driver in the 5F OTR App within 24 hours of completing the load.

Your payment terms start after your shipment has been moved to the *5F Approved* tab of the *Completed Loads* page of the Carrier Portal linked here: https://web.5f.app/carrier_completed_loads/approved.

Invoices submitted through other means will not be considered.
