The Following Obligations Only Apply for Carriers Hauling Temperature Controlled and Bulk Food Cargo:

Carriers contracted to transport commodities covered or listed in the FDA's Final Rule of the Food Safety Modernization Act (FSMA) are required to adhere to the following terms and conditions.

Carrier requirements include, but are not limited to, the following:

- Carrier is responsible to comply with all applicable regulations and requirements of the FDA FSMA Final Rule, on Sanitary Transportation of Human and Animal Food issued May 27, 2016.
- Carrier, when operating in California, must meet the requirements of California Air Resources Board (CARB) amendments to the Transport Refrigeration Unit (TRU) Airborne Toxic Control Measure (ATCM) effective January 1 2013. Carrier acknowledges that it meets these regulations for the specific trailer refrigeration unit utilized to transport Matson Logistics shipments while on California roadways and highways. Carriers must register all such refrigeration units on: <https://arber.arb.ca.gov/publicTruSearch.arb>
- Carrier, when not operating in California, may disregard the above paragraph but must agree to comply with the remaining Temperature control requirements as set forth in this contract
- Carrier agrees to indemnify, protect and hold Matson Logistics harmless for any all fines, penalties and expenses Matson Logistics may incur as a result of Carrier not being CARB and or FSMA compliant.
- Carrier and drivers are responsible to strictly adhere to all written guidelines and instructions provided by Matson Logistics and the Shipper
- Trailer must be clean and empty and in a food grade status at shipment appointment time. Carrier must clean the trailer when necessary to achieve such food grade status and agrees to be wholly responsible for sanitary conditions during transport.
- Carrier must provide an adequate supply of fuel and lubricants required for the intended normal operation of the unit(s) prior to appointment.
- Trailer must be pre-cooled to the appropriate level if the Matson Logistics dispatch indicates a frozen or refrigerated commodity is to be picked up.
- Carrier shall maintain motor truck cargo liability insurance that includes coverage for mechanical breakdown or failure of refrigeration or heating units installed in or on Carrier's vehicles. Carrier's certificate of insurance must specifically state that the motor truck cargo liability policy includes such coverage, with the deductible shown.
- Carrier must notify a Matson Logistics dispatcher immediately if the mechanical refrigeration unit becomes inoperable due to any reason and puts the commodity at risk and to allow Matson Logistics to assess the situation prior to contacting the customer.
- Carrier shall maintain all refrigeration and heating units in good condition. Such units shall be inspected by Carrier or a service company in accordance with the recommendations of the manufacturers or at least once every 30 days, whichever is more often. Carrier shall make any repairs and perform all corrective or preventive maintenance as specified by the manufacturer of the units. Carrier shall maintain records of such inspections, repairs and maintenance.
- In the event of loss, Carrier shall, as soon as commercially reasonable, provide Matson Logistics with all records of inspections that relate to the loss and permit copies and abstracts to be made from them.

Load Track must be active prior to arrival at the first pick-up and through the final delivery to receive approval for layovers and/or detention if applicable. Failure to accept Load Track and successfully track the load through final delivery may result in a \$50 rate deduction. It is the carrier's responsibility to ensure the order is successfully tracking.
