Special Instructions

*****DO NOT BREAK SEAL*****

All Carriers who pickup product on behalf of MegaCorp Logistics, are required to assume all responsibilities for the freight on the trailer as well the full value of the freight during the transit time. If you have questions pertaining to the value of a MegaCorp Logistics load, please contact your MegaCorp Account Manager for details prior to picking up the load.

This rate confirmation is an agreement between MegaCorp Logistics and carrier hired to haul the stated Load at the indicated rate. This load is not to be dispatched or double brokered. **All accessorial charges must have prior authorization.** Carrier must notify broker 1 hour before detention begins to accrue. Detention is on a per load basis and the carrier must get the agreed amount in writing. Truck ordered not used (TONU) fees will not be paid unless the driver has been dispatched by a MegaCorp Account manager. Any additional charges must appear on a revised rate confirmation sheet. This load/rate confirmation is inclusive of all charges and supersedes any tariff and/or any schedule of rates of Carrier. Carrier's use of pro-stickers or any other shipping document showing rates shall be void.

***Carrier or its agent certifies that any TRU Equipment furnished will be in compliance with in-use requirements of California's TRU regulations. (has to do with air resources/regulations)

TERMS AND CONDITIONS

1. This load/rate confirmation is incorporated by reference into the Broker/Carrier Agreement and any revisions between the parties.
2. Drivers assigned to deliver the freight must have sufficient hours of service to comply with applicable FMCSA hours of service regulations.
3. All drivers are required to check call everyday (including Sat. Sun. and Holidays) between 8:00 AM and 9:00 AM eastern time.
4. Seals should be noted and signed on BOLs. When load is sealed, the driver/carrier cannot break any seal, or there will be a claim charged to the carrier. Driver must have a minimum of 2 load locks to secure the load. After hours, drivers are required to inspect load before truck is legally sealed. Do NOT break seal.
5. Trucker Tools and/or Fourkites GPS Tracking is a requirement for all carriers.
6. Carrier/driver is responsible for loading properly. The load must be secured prior to leaving the facility. All issues should be noted on the BOLs. If BOLs state overages, shortages, or damages, do not leave the receiver without calling MegaCorp. Carrier will be responsible for any OS&Ds not reported. Contact MegaCorp immediately if any concerns.
7. In-order to satisfy the specifications of the shipper, consignee, or beneficial owner of the freight any information supplied by the broker verbally or in writing may include but is not limited to routes, pick- up and delivery times, dates, special freight handling requirements such as bracing and blocking, dimensions, and weight.
8. The carrier assumes full responsibility for the means and manner of loading with securing the freight and the conduct and performance of its driver. In the event a shipper denies carrier access to the loading process or observation of process the bill of lading shall be marked (SLC) shipper load and count. Only in this event the carrier shall not be liable for any cargo damage that resulted in improper loading by the shipper.
9. All drivers are subject to direction, control, and supervision of carrier/dispatcher and not the Broker.
10. Once a load is delivered in full, the carrier is responsible for immediately supplying the broker with the receiver signed BOLs.
11. As a matter of due diligence, if any vehicle being used by Carrier is not 100% wholly owned, upon request by Broker and prior to transporting any freight hereunder, Carrier will furnish a copy of the lease agreement or rental agreement between both parties, the last four digits of the truck's vehicle identification number, as well as proof of insurance for said truck.
12. By signing this load/rate confirmation agreement (and/or transporting the shipment, even if it is not signed), the rate price above shall be final.
13. All carriers hauling produce commodities must pulp product if shipper allows driver to do so. If any temperature differentials of **plus (+) 2** degree or minus (-) 2 degrees, the driver must report the temperature immediately to a MegaCorp broker. (all reefer loads must have a downloadable trailer)
