4.1-53-59 Liability of seed commission, seed department, seed commissioner and certified or noncertified agricultural seed producers. A warranty of any kind, either expressed or implied, including a warranty of merchantability, fitness for a particular purpose, varietal identity, or absence of disease, is not made by the seed commission, the seed department, the seed commissioner, or certified or noncertified seed producers as to the quantity or quality of the crop produced from the seeds or as to other produce, which is inspected and certified, except as provided in this section. The sole warranty made is that the seeds were inspected under the rules of the seed department or the United States department of agriculture. The seed commissioner functions and serves only in an official regulatory manner.

74-03-01-18. Exclusion of warranty. Field seeds certified in accordance with this chapter have been field inspected and laboratory tested as specified in this chapter. The state seed department and inspection services function and serve only in an official regulatory manner and do not relieve the grower or owner of the grower's or owner's responsibility. Neither the producer, the seller, the North Dakota seed commission, the seed commissioner, or the seed commissioner's employees make any warranty or representation of any kind, express or implied, as to the quantity or quality of the crop produced from certified seed, including merchantability, fitness for a particular purpose, absence of disease, or varietal or selection identity. The only representation is that the seed was inspected under the seed certification rules and regulations of North Dakota state seed department.

Inspections, tests, certifications, and other acts are not intended to induce reliance on the state seed department's inspections, certifications, or any other action or inaction for any purpose relating to quantity or quality of the seed or crop produced, fitness for purpose, merchantability, absence of disease, or variety of selection identification. Certification means only that the seed was randomly inspected and at the time of the inspection the field or seed lot met the rules of the department.
