The product lot listed on this document has been reviewed and verified by a Preventive Controls Qualified Individual, or under the direction thereof, to be in good standing with the HB Food Safety Plan for critical control point metal detection. The product lot has also been reviewed and verified for proper use and documentation of sifting and magnets as they apply. Lastly, preventive controls verification has been completed for sanitation and allergen labeling requirements.

Data represents average results of the entire production run. Variation within the production lot will occur. For granulation, please refer to product-specific customer specification or granulation guidelines. These guidelines may not apply to the product you're receiving.
