Payables Team and PODS (Proof of Delivery):

- All Carrier Invoices must be accompanied by Load Rate Confirmation and ALL Proofs of Delivery (POD's), Walmart Trailer Control Report (TCR), Target Manifest (this is Targets POD), and documentation of all accessorial charges presented on the invoice. Submit invoice and documentation to PODS@FUSIONTRANSPORT.COM only. This is a no reply email.
- All payment status inquiries can be sent to <u>PAYABLES@FUSIONTRANSPORT.COM</u>.

- All Drivers are required to possess and have on their person at time of pickup a US C.D.L. Exceptions for Loads going cross border to Mexico or Canada. A Mexico or Canada issued commercial drivers license will be accepted.
- CONTACTS:
 - The Fusion Transport Carrier Representative you booked this load with is noted In the Fusion Transport Contact section above. 0 Please direct any questions to them or TRACING@FUSIONTRANSPORT.COM
 - At no time is a Carrier or Driver permitted to contact our Receivers directly unless approved in advance by your Fusion 0 Transport Carrier Representative.
- Carrier is responsible to properly secure all freight in the trailer. Load Bars and/or straps (2 min.) are required for all Fusion Loads.
- All freight should be counted by the Driver, Fusion does not mark or accept "Shippers Load & Count" on our BOLs for shortages/overages.
- Any OS&D must be reported to Fusion Transport immediately before leaving any consignee.
- No DOUBLE BROKERING is allowed on any Load with Fusion Transport.
 - Please note you will be loading at a Fusion Transport warehouse. Your driver will be asked to provide their CDL, Truck Registration and Insurance, if they do not match the Carrier Name stated in the Carrier Information section above the truck will not be Loaded. This will cancel this agreement, and the incident reported and filed with Carrier 411. This automatically disqualifies you from working with Fusion Transport at any future time.
- Load Tracking:
 - Fusion requires carrier to provide TWO Call Checks each day by 9:30 AM EST and 3:00 PM EST until the load is delivered. 0
 - Call 201-251-7333 or email TRACING@Fusiontransport.com 0
 - 0 Failure to provide timely and accurate Call Checks may result in a fine up to \$150 per day.
- Walmart and Target Location Deliveries:
 - Your load MUST deliver at the appointed time(s) noted above. Any necessary change to the appointment including Early Delivery must be made by your Fusion Transport Representative. If you deliver Early or Late without an approved reason, you will be subject to a \$250 Missed Delivery fine.
- Walmart PULL & FAX: Most Walmart locations now offer the PULL & FAX or PULL & EMAIL program.
 - This program is designed to make unloading fast & efficient. The Driver must ask for and approve Walmart to use Pull & Fax and provide the email address: PODS@FusionTransport.com to forward all POD's once unloading is complete. Please ensure your driver understands how this works, provides all necessary paperwork and the email address for finalizing the delivery documents after unloading. Ask your Fusion Carrier Rep if you have any questions.
 - Fusion also requires the Trailer Control Report (TCR) and Appointment Sticker (*also see Accessorials section below) to accompany the invoice.
 - *ACCESSORIALS: Must be approved by Fusion Transport in advance.
 - Pre Delivery requirements: 0
 - Detention: Carrier must notify their Fusion Carrier Rep. or <u>TRACING@FusionTransport.com</u> for approval at least ONE (1) hour prior to detention starting. Detention is paid after the first two hours from the Appointment time if arrived on time at rate of \$40 per hour in 15-minute increments. If Carrier arrived more than 15 minutes past the noted appointment time, no Detention will be approved. Max daily detention (Layover) is \$250 per day.
 - . Lumper: Notify if Lumper is needed. Contact your Fusion Carrier Rep for ComChek if needed. All Lumper charges must be accompanied by a valid receipt. If no receipt is provided, charge will be denied or deducted from the invoice. All other ancillary charges: Contact your Fusion Carrier Rep for approval and accepted documentation.
 - Post Delivery requirements: o
 - If accessorial charges are incurred during the pick up, transport, or delivery of this load, documentation of said accessorial charges must be scanned or photographed and sent to trtr@fusiontransport.com within 24 hours of delivery for approval. Failure to pre-approve or report documented accessorials at occurance or within 24 hours of occurance may result in forfieture of reimbursement for these charges.

CARRIER MUST SIGN THIS LOAD AGREEMENT AND RETURN BY EMAIL

Additionally, if you received the Load Confirmation by email from our TMS, you can click the "Accept" link on the email to e-sign this confirmation.

Steve Tatum С

Authorized Carrier Signature: _

Date: 03/27/2025 Carrier named above represents it has read and approves the terms & conditions listed and that it is acting as a licensed Motor Carrier and not as a BROKER for this load. The driver will be required to present vehicle registration and insurance coverage at time of pickup to prove that the truck is registered to the carrier named above. Failure to provide proof of carrier status will result in immediate cancellation of this agreement.

Information to Cover with Driver

Explain to driver what happens when trailer is complete.

The DC has 2 hours to unload. Contact will be made with the driver when the load is complete.

The trailer should not be hooked back up to until called back to the office, paperwork is given, and driver is released.

                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |                                                                                                                                                                                                                        |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |                                                                                                                                                                                                                        |
