HEALTH HAZARD WARNING: CONTAINS FREE SILICA. DO NOT BREATHE DUST - Prolonged inhalation can cause delayed lung injury including SILICOSIS, a progressive, disabling and sometimes fatal lung disease. IARC has determined that crystalline and microcrystalline silica inhaled from occupational sources can cause cancer in humans. Risk of injury is dependent on the duration and level of exposure.
Do not use as a dry abrasive blasting agent. Follow OSHA or other relevant safety and health standards for the form of crystalline silica called quartz. Current material safety data sheet containing safety information is available and should be consulted before opening. Since empty containers retain product residue, follow label warnings even after container is empty.
