By means of either its signature on the Confirmation or its provision of service, CARRIER shall be conclusively presumed to have agreed to the rates and conditions set forth herein. CARRIER further represents and warrants that said mutually agreed upon rates are reasonable and compensatory, that the freight would not have been tendered to CARRIER at higher rates, and that no shipments handled under such rates will subsequently be subject to a later claim of undercharges.
- Carrier agrees for the above rate to perform transport services for GEODIS. Carrier agrees and understands that this contract is not a trip lease and that carrier is an independent contractor operating under its own operating authority. - Carrier must be CARB compliant when traveling to, from or through California and carrier agrees to and indemnify GEODIS and all other parties from any loss or damage resulting from carrier's failure to comply.

**Temperature-Controlled Handling:**

Carrier shall ensure that any shipments requiring controlled temperature transit are maintained at all times within required temperature ranges and shall otherwise comply with handling instructions provided by the shipper, consignor or consignee (including such instructions that may be passed through to Carrier by Broker). If Carrier accepts goods requiring temperature control but does not determine the temperature of the goods prior to loading, or does not provide proper equipment, or fails to maintain and monitor proper temperature requirement for the shipment while in Carrier's possession, Broker's customer(s) or consignee may reject, and Carrier shall be liable for the load as a total loss, without any salvage obligation or credit to Carrier.
