Tel: 844-899-8092

Trailer must be clean, dry, and odor-free. Please have driver call 855-241-3100 for dispatch. If carrier/driver fails to report detention within the first 2 hours of occurrence, detention compensation will be denied. In addition, IN and OUT times need to be notated on BOL with a legible customer signature. The original seal must be on the trailer upon delivery to avoid rejection and/or future claim and if original seal is not intact and load is rejected, carrier is responsible for full contents of load. Driver must check in under MCLEOD on ALL loads.

- Carrier acknowledges that Shipper's insertion of McLeod Logistics or McLeod Express name on the bill of lading, freight tender, or any other document shall be for Shipper's convenience only and shall not change McLeod Logistics status as a transportation broker. In the event Broker's name is listed on the bill of lading, shipping manifest or other similar document, as the carrier, Carrier shall cross-out or otherwise remove Broker's name and enter Carrier's name as applicable. Invoice must include McLeod load number and a signed copy of the BOL or POD.
- Lumpers will be reimbursed with a valid receipt as long as lumper is reported within 24 HR. If a receipt is not submitted, carrier will not be reimbursed and/or freight bill will be deducted by that amount.
- Invoices can be mailed to P.O. Box 1368, St Louis, MO 63188 or e-mailed to accounting@mcleodlogistics.com

Instructions to Driver

All load Temperature Settings must correspond to those listed on the BOL for this load. If they do not, the driver MUST then report the discrepancy to Armada prior to departure. All trailer doors must remain sealed during transit. If the seal numbers listed above are not intact upon delivery, then this load will be subject to rejection. If the load is rejected, the carrier will be held liable for any and all loss of product. By signing below, I (the carrier's driver) agree that the actual load temperature settings are as listed above and that the shipper has properly sealed the trailer with the seal numbers listed above. It is understood that the Load Temperature during transit must be maintained at the temperature listed on the BOL and that trailer seals applied to this load must remain intact. Only personnel at the customer's delivery point can verify that the seals are intact prior to opening trailer doors and that only same personnel can break the seals upon delivery.
