

## Starting Fuel Form

As of today, 05/13/24 (date), I am signing this form that I will be charged for the fuel of the truck that I am assigned to. The fleet manager will take note of the quantity of fuel that is left in the fuel tank, and it will be further calculated in the accounting office. The national average for Diesel #2 (Ultra Low Sulfur Diesel) is 4.3 dollars per gallon.

Price of fuel charged: 236 \$ split in 2 if possible

Truck fuel Percentage: 22 %

Truck number: 858
