SERVICE COMMENTS: Driver came in stating RR brakes needed replacement. Upon inspection found all brakes on trailer need to be replaced, the LR brake chamber was seized and not functioning properly. RR brake shoe rollers were no longer functioning as they had fallen out & the emergency glad hand had a ripped hose at the fitting. Advised company of damages on trailer, received approval to replace rear axle brakes & LR brake chamber, company advised front axle will be serviced at terminal. Replaced rear axle brakes with new 4707 shoes & a new piggyback on the LR chamber. Adjusted brakes according to manufacturer specifications. Torqued rear axle tires to 475 ft lbs. Repaired emergency glad hand hose with a new crush washer & spring to prevent the hose from breaking again.\\TYORK6\\11/16/2024\\14:21`
